GPU Programming Assignment Report - template

Name Surname

May 9, 2024

1 Implementation

Provide a description of key implementation decisions e.g. why and how you implemented a GPU kernel, how you implemented memory management between host and device memory spaces

2 Correctness of results

Explain how you ensured that GPU implementation produce correct results

3 Performance

Present and discuss performance and scalability of your GPU implementation

4 Conclusions

Other conclusions and observations about GPU implementation
